Education

Pune Institute of Computer Technology, Pune

Bachelor of Engineering in Electronics and Telecommunication

Aug 2023 – June 2027

CGPA: 7.61

C.S. Kothari Jr. College, Nandura

HSC 12th Grade

May 2023

Grade: 81.67%

C.S. Kothari High School, Nandura

SSC 10th Grade

May 2021

Grade: 94.00%

Experience

ShadowFox

Certificate

Web Development Intern

Feb 2026

- Developed a responsive dental clinic website using React, HTML, CSS, and JavaScript, delivering an intuitive and user-friendly experience across devices.
- Built reusable React components and optimized the website's performance, layout, and responsiveness to improve usability and maintainability.

Technical & Analytical Skills

Programming Languages: Python, C, C++

Databases: MySQL, PostgreSQL, Microsoft SQL Server

BI & Data Analysis Tools: Power BI, Power Query, Tableau, MS Excel, Google Sheets

Web Technologies: HTML, CSS, JavaScript, React, Node.js, Express.js

Core Concepts: DBMS, Statistics, Data Structures & Algorithms, Object-Oriented Programming, Computer Networks

Generative AI: LLMs, RAG, Vector Databases, LangChain, LangGraph

Projects

UPI Transaction Dashboard | *Power BI, DAX, MS Excel*

GitHub

- Designed an interactive Power BI dashboard to analyze UPI transaction data using charts, KPIs, and filters for better data visualization.
- Cleaned and transformed raw transaction data using Power Query to improve data quality and create a structured dataset for analysis.
- Analyzed transaction trends, payment patterns, and key performance metrics to generate meaningful business insights and support data-driven decision-making.

MSRTC Bus Record Management System | *Node.js, Express.js, MySQL*

GitHub

- Developed a web-based bus record management system using Node.js, Express.js, and MySQL to efficiently manage maintenance records and bus information.
- Designed and managed a relational MySQL database with CRUD operations, enabling efficient storage, retrieval, and updating of bus and component records.
- Built a responsive interface using HTML, CSS, and JavaScript to simplify record management and improve operational efficiency.

Superstore Sales Dashboard | *Tableau*

GitHub

- Developed an interactive Tableau dashboard to analyze sales, profit, and order performance using dynamic charts, KPIs, and filters.
- Analyzed regional, category-wise, and customer segment performance to identify sales trends and business insights for data-driven decision-making.
- Designed an intuitive dashboard with interactive visualizations to enable efficient exploration of key business metrics and performance indicators.

Achievements & Certifications

– **Complete Data Analyst Bootcamp From Basics To Advanced**

Certificate

Completed comprehensive training in SQL, Excel, Python, Power BI, Tableau, and Generative AI, gaining hands-on experience in end-to-end data analytics workflows.

– **Tata GenAI Powered Data Analytics Job Simulation (Forage)**

Certificate

Completed practical tasks involving Generative AI, exploratory data analysis, AI-powered predictive analysis, business reporting, data storytelling, and AI-driven collections strategy.

– Led my team in district-level cricket tournaments, demonstrating leadership, teamwork, and discipline.
